Dear Colleagues,

The [IFALPA Daily News](#) is now available online.

Here are today's top headlines. To read more, click on the title:

[Brussels air pilots extend strike into second day](#)

Pilots at Brussels Airlines extended their strike into a second day on Tuesday, forcing the Belgian carrier to cancel the majority of its flights.

[Goal is to develop a 'European generation' of pilotless aircraft within 10 years](#)

France, Germany and other European countries on Tuesday formed a "drone users club" to pool information on the use of pilotless aircraft and develop a rival to the U.S. and Israeli machines that dominate the field.

[ICAO Council elects Nigerian as new President](#)

The International Civil Aviation Organization (ICAO) has announced the election of Dr. Olumuyiwa Benard Aliu of Nigeria as the new President of the ICAO Council.

[Volcanic ash detector successfully tested](#)

The flight-test of an experimental technology called Avoid, an infrared camera capable of detecting ash cloud particles before an aircraft might encounter them, has proved successful.

[Pilots 'losing flying skills' due to modern plane technology](#)

Airline pilots have lost flying skills as automation takes over mundane tasks and may be startled when systems don't behave as expected, both of which have contributed to crashes, a US government and industry report concluded.

[Boeing sets out 777 development timetable](#)

Boeing outlined on Monday a timetable for the development of a new version of its 777 jet, a day after landing record orders at the Dubai Airshow.
