Here are today's top headlines. To read more, click on the title:

[China voices concern over N. Korea's disregard of air safety rules](#)

China expressed concern Thursday about North Korea's recent disregard of international obligations to ensure the safety of civil aviation.

[FAA proposes fix for 737 autothrottles](#)

The Federal Aviation Administration is proposing that airlines update the autothrottles on newer Boeing 737 aircraft, to avoid a problem with slowing down prematurely before landing and potentially crashing.

[ICAO launches new runway safety iKit](#)

In line with its ongoing cooperative efforts to resolve what remains the number one priority for global aviation safety experts, the International Civil Aviation Organization (ICAO) has released a new Runway Safety Implementation Kit (iKit), developed in collaboration with IATA, ACI, CANSO, ICCAIA, FSE, IFALPA, IFATCA, IBAC, IAOPA, FAA, EASA and EUROCONTROL.

[Higher pay will help airlines attract pilots needed to comply with new rules](#)

A recently released report verifies what many have suspected when it comes to the supply of

ULUSLARARASI TEMSİL IFALPA BELGESİ

airline pilots: There are plenty of them. They just need to be paid a fair wage to get them into the cockpit.

[Abu Dhabi airport technical failure halts flights](#)

Dozens of flights to the United Arab Emirates capital of Abu Dhabi were diverted on Thursday after a technical malfunction during heavy fog led authorities to stop accepting incoming planes, according to the airport and its main airline.

[EU close to exempting long-haul flights from ETS](#)

The European Union has reached a preliminary deal on a law that will exempt long-haul flights from paying for carbon emissions until 2016, EU sources said.
