Belge: IFALPA Daily News – 9 January 2014

Tarih: 10.01.2014

Kaynak: IFALPA haberleri · talpa.org

Dear Colleagues,

The [IFALPA Daily News](#) is now available online.

Here are today's top headlines. To read more, click on the title:

[Foggy weather? 'Drishti' to provide direction to pilots](#)

Airports across the country may soon be equipped with indigenously developed state-of-the art

runway visibility measuring system 'Drishti' to provide information to pilots for safe landing and take

offs during foggy weather.

[Initial A350 test aircraft reach 800h](#)

Airbus's first pair of A350 prototypes have logged over 800h between them since the flight-test

campaign began last June.

[Clean Sky 2 will set stage for next generation of airliners](#)

Europe is targeting fuel burn and emission reductions of 20-30% from 2014 levels for airliners entering

service in the 2025-35 time frame, through increased integration of propulsion, structures and systems

to be demonstrated under the proposed Clean Sky 2 research program.

[ATSB investigates altitude alarms during Virgin ATR approach](#)

ULUSLARARASI TEMSİL IFALPA BELGESİ

The Australian Transport Safety Bureau (ATSB) is investigating an approach by a Virgin Australia ATR

72-600 that resulted in several terrain alert warning system (TAWS) alarms.

[NTSB to finish Boeing 787 battery investigation in March; final report due in the fall](#)

The US National Transportation Safety Board on Wednesday said that investigative work into the Jan. 7,

2013, fire aboard a Japan Airlines Boeing 787 at Boston Logan Airport is estimated to be completed by

the end of March.

[Cebu Pacific to acquire Tigerair Philippines](#)

Signaling another round of consolidation in the Philippine domestic air transport market, Cebu Pacific and

Singapore-based Tigerair have entered into a strategic alliance calling for the Filipino budget carrier to

acquire Tigerair Philippines (TAP).
